

# COVID-19 SAFETY PLAN

- We are performing temperature checks on everyone that enters the building; those with a temperature of 100.4 degrees or higher will not be admitted.
- Upon entering the building, you must check-in at our Box Office and provide contact information for each guest.
- Per state guidelines, all patrons, volunteers, and actors must wear a face mask while in the theatre.
- We are operating at a reduced capacity and have adjusted our seating arrangement to ensure the safety and comfort of our audience.
- Everyone must adhere to practicing six feet social distancing while moving throughout the building.
- We have implemented new cleaning and sanitizing procedures throughout the facility, which include an extensive cleaning of all high-touched areas numerous times throughout the day/evening.
- There are an increased number of hand sanitizer stations for your use.

Audiences for live performances will be limited to approximately 20% of the theatre's capacity, and all shows will be held under strict Pennsylvania Department of Health and Centers for Disease Control and Prevention COVID protection guidelines.

To ensure the safety of patrons, staff, and performers, Susquehanna Stage will adhere to socially distanced seating guidelines, require masks, follow sanitation and safety protocols, and practice contact-tracing, led by our newly appointed Health & Safety Committee.

Finally, if you have been ill or showing symptoms of illness in the two weeks leading up to your performance date, or, if you have a temperature on the date of the show, please call the box office and we will allow a complimentary exchange. In addition, if you have been in contact with someone diagnosed with COVID in the past 14 days or someone awaiting the results of a COVID test, you must refrain from attending the performance and will be refunded for the ticket price. Thank you for your understanding and support and we look forward to seeing you soon! Exposure to COVID-19 is a risk in any public location; we cannot guarantee you will not be exposed during your visit.
